

Updating Paper Buster

Description

Use these notes for step-by-step instructions on how to upgrade Paper Buster.

***** Make sure all users have exited Paper Buster and Microsoft Outlook**

1. Check your current version of Paper Buster.
To do this go to *Help>About Paper Buster*
2. [Click here](#) and scroll down to Paper Buster.

Paper Buster

Date	Release	Release Type	File Size	Minimum Version	Download
09/06/2015	3.3.33	Minor	22 MB	3.0.7	3.3.33_Paper_Buster_Minor_Update.zip Also required: - Microsoft Access Database Engine - Microsoft DHTML Editor (For Win7 and above)
01/07/2012	3.0.7	Major**	220 MB	N/A	3.0.7_Paper_Buster_V3_Workstation_Install.zip

3. Installation

Before installing, make sure all users have exited Paper Buster and Microsoft Outlook.

You will also need local administrator rights to complete the install.

- a. If you current version of Paper Buster is 3.0.7 or above then download and install the latest **Minor** update.

OR

- b. If your current version is less than 3.0.7 you will need to uninstall your version of Paper Buster and install version 3.0.7 followed by the latest **Minor** update.

*** Note if installing on a **Terminal Server**, do not install MS SOAP from the Paper Buster installer. Download and install MS SOAP separately from [here](#).

4. After installing the latest update, navigate to the install folder. By default this is C:\Program Files\Practice Central\Paper Buster\
 - a. If your computer is 64 bit, run ***reboot(Winx64_OfficeX32).bat***

OR

 - b. If you computer is 32 bit, run ***reboot(Winx32_OfficeX32).bat***
5. Download and install the following if not previously done.
 - a. [Microsoft Access Database Engine](#)
 - b. [Microsoft DHTML Editor](#)

6. Launch Paper Buster and check that your version is up to date.
